- **Semester Applying for: Sep 2022**

STATEMENT OF PURPOSE

INTRODUCTION

“Knowledge is Infinity” and comes through education as well as experience. For career building both are equally important.

For “Bright Future” every one set there today, in such a manner that will make it successfully possible and the present time is of science, in which more knowledge you have, most successful you are. For that it is important that what you learn but where you learn is also very important matter.

U.K. has produced most of the century’s technology and its universities have hotbeds for research. It is then not a small wonder that I wish to study at such center of excellence as your institution.

In today’s competitive world of specialization if one has to sustain and be at the forefront of competition one has to adapt to ever changing environments of business. The most essential component of successfully adapting to this change is to upgrade oneself in terms of knowledge and skills. I am applying for admission in [MSc in Business Management](#)

Standard (MSc) as I am particularly in gaining more knowledge on business, management and strategies that affect the competitive performance of a firm and an individual

Let me take this opportunity to tell a few words about myself. I have always been taught that if I try to find answer on my own then I will get more knowledge and will understand it in a better way. My parents have constant source of inspiration, guidance and support for me.

EDUCATIONAL BACKGROUND

I have completed my S.S.C from Maharashtra state board of secondary and higher secondary education Pune, in 2002 securing 48.53 % respectively. Onwards, I have chosen commerce stream for further education. I have completed my 12th standard also from the same board in the year 2004 securing 37.50%. Thereafter I have completed my Bachelor of Commerce from Shreemati Nathibai Damodar Charckersy Woman's University, Mumbai in 2008. Then I have completed my Diploma in Human Recourse Management (DHRM) for 1 year form Welingkar Education in 2009. Also, I have given my IELTS wherein I overall secured 6.0 bands in June 2012.

HOW THIS COURSE WILL HELP ME IN FUTURE

The short-term goal at this moment is to get the admission in the postgraduate program of MSC and learn the different courses pertaining to management through proper utilization of the resources available at the business school. The experience of studying in a business school would definitely help me a long way in my career and this I would gain by

active participation in discussions, workshops, and seminars. After This course I have would definitely shape my career in a new direction. The Msc in business management program would help me in sharpening the existing skills and in professional grooming. This would be the first step on the ladder of the success. My aspiration is to evolve into a good manager and be in the leading management position.

The person in the capacity of the manager needs to have knowledge on various facets. I think my academic training in commerce and human resource would help me in fulfilling the functions and responsibilities of the manager

As stated by Jackie Joyner Karee, "To achieve success one needs three thing- dream, hard work and discipline." I only need a platform to take off to achieve my goal. I assure you that I will not leave any stone unturned in achieving the specific standards that I have set for myself in my career.

Thanking you,
