Why University of Bolton?

On doing the research I can across the Bolton University it seemed to be a perfect destination for my higher studies , with world class education with an unforgettable experience for a student, The very first thing I like about was the student once arrived will have a guaranteed accommodation by the university till they find one for them, students who graduate from the said university are on high demand they university does placement of 95% of the student to over 1000 leading employers providing job opportunity to graduates . The university is very close to all means of transport student can walk to the railway station, Bus station. University also gives an advantage to all the students to learn a new language for free which can be addition benefit.

Msc Construction Project Management

As I finished my bachelors in civil engineering I wanted to do my masters in the relevant field and while searching for courses of my field I came across the course of Construction project management which was relevant to my previous study and by taking up this course for my masters I will be able to have more deep knowledge along with the management module included in this course which would be a additional benefit to my study like, planning, Health and safety management , leadership etc would be more help full . The Master course contains totally different modules which would help me learn all factors related when I plan to start my very own business or find a suitable job in my field of interest once I finish my Masters.

FUTURE PLANS:

After completion of this course, I intend to come back to my home country with the outstanding skill set and willing to work at managerial level position in well-known establishment to make a high career.

Hence, after completing my course I am confident that I will easily get a suitable job in leading organizations in India, where is always a shortage of technical & skilled people. At the end, my only goal is to be a successful and dynamic professional in near future which can make me stand out amongst all & also want to contribute to my parents financially and fulfil their dreams and aspirations also which make them proud. My aim is to contribute to my society, city and consequently my country. I am sure to achieve this as I firmly believe

“Where there is a will there is a way.”
