

## STATEMENT OF PURPOSE

I am **Student Name** I completed my Bachelor's of Commerce from Veer Narmad South Gujarat University in 2014 and Scored 5.43 CGPA. After that I worked for 2 years from (2017-2019) in 3 Star Advertising Company As a Computer Accountant. Then I went To Poland, There I did Diploma in Management in 2019. I think that this is not enough for my Career, So I Choose to Study in U.K. For My Further studies.

UK universities all offer programs that I can utilize when applying for jobs at home after my studies. Not only is the academic standard at their partner universities valued and of high prestige, my experiences abroad will demonstrate that I am independent, open-minded, flexible and up for a challenge! Among the benefits of studying in UK is a wide choice in picking my field of study and institution. The UK education system promotes close interaction between students and lecturers and provides the freedom to combine different subjects into a single course of study. Indian students who're worried about expensive tuition fee need not lose sleep either, for there are many scholarships that I can apply to, especially at postgraduate and research level, to support my study and cost of living costs. Studying in UK is an opportunity to experience a multicultural environment, meet new people and fellow international students from across the world and discover new places. I benefit by developing a range of skills that are necessary to be part of today's global workforce.

The university which would help me to provide detailed knowledge is University of Worcester. The university is recognised for providing one to one attention to the students and developing their personality as per the current scenario of the market. Moreover, they also boost their graduates to develop innovative ideas and with the help of lectures from the professionals help the academician to learn about the most-up-to-date methods to overcome the hurdles faced by the huge industries. Their students are our number one priority and University of Worcester provides top-quality support services to help each student achieve their best academically and personally. They want Student's years spent with them to provide the Launchpad to an exciting future.

The Human Resources Management HSC is perfectly coincided with my interest because it provides me specialization in many functional areas of business such as Strategy, Sustainability & the Global Economy , Leadership and Change Management, Coaching and Mentoring for Business Leaders, Engaging the Diverse Workforce, etc. which would give me an exposure of new methods & technologies used in business; all of these ultimately enhance my dexterity & employability.

After completion of my program, I plan to return to my country and I feel that the knowledge and experience I gain in my master's program will be essential in helping the company expand and grow well into the future. I am confident that the skills and expertise I have acquired through years of education and employment have prepared me well for postgraduate study at your institution, and I am eager to apply myself and develop my skills further.
