

I, **Student Name**, Have completed my Master in Business Administration in Human Resource from University of Wales and Bachelor from Tribhuvan University from Nepal. Project Management has always been my field of interest as I find it interesting and challenging. Specialization in this subject combined with Finance will provide me with an ideal base to embark on my quest to be a leader in the business world of tomorrow.

I would like to divert your mind on the problem I'm having with my Documents is that I have Applied my visa for Tier 4 Student in January 2011 and granted visa till July 2011(Approx). The copy of my visa for this duration I have lost and I could not find it but just for the reference I have attached a CAS which my college has issued me for that duration. And as I got awarded my Master Degree I applied for Post Study Work Visa.

Why I want to do MSc in Project Management?

I am already holding a degree in Human Resource which was the primary goal to come to UK. With this qualification I will be able to look after the Human Resource side of our family business. Our family owned business which my father is running successfully since last 15 Years. I am confident that with the qualification I have achieved I shall be able to produce the HR related Problem of the company and Now I want to rectify errors in company account. Now my father is an elderly man and struggling to give 100% to the company. With the business knowledge that I will gain in this course, it will help us to improve the quality of life. I will also get myself involve in the decision making side of the business so that I could share the work burden of my father helping him to address his health issues with the growing age and will have some time off work.

Currently we are also planning to expand the business and start providing overseas tours. Now this bit will involve travelling and dealing with the different finance industry based in many other countries of the world as different Country different Criteria for different Project or Proposal. So I clearly feel the need to study the degree in Project Management that can give me advance knowledge of inside and outside factors involve in business decision making. My purpose for choosing to study MSc is particularly to enhance my capabilities and prepare myself for a brighter and prosperous future in a competitive environment. I have chosen LCA/ARU as it is, undoubtedly, one of the most reputed universities of United Kingdom with best faculty and one of the best teaching methodologies.

I therefore seek the opportunity to grant me an admission in LCA/ARU to fulfill my ultimate goal of achieving the qualification and be successful business woman in my own country of permanent residence.

Apart from academics I take keen interest in co-curricular activities and my hobbies are reading, swimming and playing football. The main authors I read include Dan Brown, JK Rowling and Jeffery Archer. I am cheerful, intellectual, sociable and always willing to help others and make new friends. I firmly believe that I am well prepared for a place at your university and have the qualities that are required to succeed in this field.

I am confident that accomplishment of my foreign degree from LCA/ARU will prove to be the backbone of my professional success.

Waiting for you positive reply.

Thanking You.
