

STATEMENT OF PURPOSE

I am graduate of Dr. NTR University, got graduated in Bachelors of Physiotherapy with 61.93% in 2006. I have been proven as good academic performer in my academics from schooling till graduation. I have undergone internship for 1 year which is a part of my graduation course.

As a student till now, I was introduced to a wide gamut of subjects, both in and outside the field. I developed excellent analytical skills, improved my problem-solving ability, and developed strong team abilities. After my graduation, I have moved through different roles and gained work experience. I worked as physiotherapist for an year in Saaburi Multi Disciplinary Assessment Clinic, Hyd, A.P, followed by Health Advisor in Health Management and Research Institute, India from Feb 2008 to March 2011.

I got great experience working with 2 employers at different roles. I have noticed the working abilities of my higher officials and understood that management skills are very important for a person to succeed with better career and enhance higher designation in an organization. After working with 2 employers, it drove in my mind to aim for higher designations in health care industry so as to betterment my career.

Taking into consideration of my interest, I wish to proceed with MBA to attain a clear picture on organization working behavior, financial and human resource management, employee/client relations management. In order to achieve my career goal, I require more than experience; I need to gain more systematic knowledge base in business development, more importantly, I need to procure a foundation in decision making.

I have sound knowledge in health science and an MBA added my graduation and work experience will enable me to lead to a path which I am aiming for. For this, I have chosen a plat form of education in UK. UK has good education system and the universities in UK provide quality education.

I find the course curriculum is apt to my aspirations in your esteemed university and hence wish to be part of it to enhance managerial approaches and build my career. As a MBA student, I will contribute the knowledge and skills I have gained through my

education and hands on experience. I know the fact that journey to achieving the goal is as important as the goal itself.

I am quite confident of doing exceptionally well in my further studies. I am looking forward with enthusiasm in joining your esteemed university for MBA in pursuit of my dream.

I thank for the opportunity provided by the university to pendown my reasons in support of my application. I wish to take up the opportunity to study in MBA in your esteemed university to enhance efficient abilities of management required for a professional and progress my career.

Thanks
