

STUDY IN USA

WHY STUDY IN USA

- The United States of America (USA) hosts the most number of international students in the world.
- The United States offers lucrative earning opportunities with its diverse and robust economy, providing individuals access to high-paying jobs across various industries and fostering a culture of innovation and entrepreneurship.
- The US is the undisputed leader in terms of educational excellence. The US education system is a top-ranker for its widely known research-oriented expertise
- Home to 3,600 universities, the US has the biggest chain of universities and colleges, thus, international students have ample options to choose from
- The United States has 27 of the world's top 100 universities, according to QS World University Rankings 2023.
- The USA offers various work opportunities for international students, including internships and part-time jobs on campus. There are also Optional Practical Training (OPT) and STEM OPT programs that allow graduates to work in their field of study for up to three years after graduation.

The United States enrolls more international students than any other country in courses relating to engineering, mathematics, and computer science, as well as business and management
